Teaching Fishing...

is what this show was built around and what makes it unique. The show facility - **The Niagara Falls Convention Center** - provides a spacious Exhibitor Event Center as well as a multitude of seminar rooms all utilizing "State of the Art" technology. The show has the capacity to educate over **1,200** people concurrently across 20 different education areas in the building, including the Hawg Trough - each targeting different topics / levels of expertise. The 2023 show offered attendees the opportunity to learn from over 200 **free** classes over the 4 days of the Show with the average attendee taking advantage of the opportunity to increase their fishing knowledge by attending over 7 classes during the show. The core belief of the show is that it is making a **difference** toward the effort to grow the sport of fishing by providing a vast amount of fishing education. By offering this education, this show will recruit new anglers, including the next generation to the sport, as well as providing existing anglers the fishing knowledge to increase their enjoyment of the time they spend on the water by being more **successful.**

The Show is centrally located within one of the most diverse and spectacular freshwater sport fisheries on the planet. The Niagara River, Lake Ontario and Lake Erie are all within casting distance for salmon, trout, bass, walleye, perch, muskellunge and so much more.

This “Teaching Fishing” show provides each attendee with the opportunity to become a better angler by choosing, from a robust curriculum, consisting of over 300 hours of “Fishing Education” spread across over 200 seminars taught by around 80 different Expert Anglers. All includes with the price of admission to the expo.
